Unit4 Public Sector Industry Model

Drive efficiency, predictability and citizen value

Unit4 helps public sector organizations boost productivity, reduce costs, effectively plan for the future and improve citizen value.

Our industry model approach provides Finance and HR teams in Public Sector solutions that transform how people work, freeing your people to spend more time focusing on the work that matters most – serving your citizens.

The model provides public sector-specific capabilities to help you deliver more responsive government services. Increase efficiency, achieve regulatory compliance, transform public services delivery and empower the people who make it all happen using an intuitive and flexible cloud-based platform.

Why the Unit4 Public Sector solution?

- **Specialized knowledge of the Public Sector industry and technology –** we understand your industry, building tailored solutions to give you the functionality, agility, and efficiency you need to combat the complexity of the Public Sector operating environment.

- **Fast time to value –** a faster and reduced risk implementation process means benefits are realized quicker.

- **Improved data integration –** benefit from both the flexibility to integrate with multiple and changing technology stacks and from best practice guidance to help you unify data and simplify statutory reporting.

- **Future-proof your technology –** we are committed to investing in best-of-breed technology that helps you meet the changing needs of the Public Sector.

- **Satisfy citizens and retain talent –** deliver user-friendly digital experiences and automation that meet the ever-rising standards of the modern service economy, bringing a better experience for your citizens and less administrative burden for your people.

Our Public Sector solution includes:
- Financials
- Budgeting and Financial Planning & Analysis
- Fixed Assets
- Procurement

- Human Capital Management
- Payroll
- Travel Expenses
- Project Life Cycle
- System Administration

Up to 50% reduced implementation time
- Faster time to value
- Reduced total cost of ownership

What's unique about our Public Sector model?

Improve operational efficiency

- Reduce the total cost of ownership without compromising capabilities by working from a consistent, single platform that spans your organization.

- Free up resources and time to focus on front-office service delivery by automating transactions and back-office functions using an agile, intuitive platform.

- Deliver using proven, industry best practices embedded in end-to-end business processes.

- Rationalize the back-office technology landscape.

Recruit, retain and grow a digitally empowered workforce

- Attract and develop talent, retain your people by implementing successful recruitment tools as well as talent and training management programs.

- Increase user engagement and provide new ways of working through intuitive, easy-to-use technology and a business-configurable platform.

- Reduce the administrative burden to focus on higher value people-focused tasks.

- Ensure you have the right tools, capacity and skills in place to react to changing requirements supported by a comprehensive workforce planning and analytics solution.

Increase transparency, predictability and accountability

- Take full control of your expenditures, income and budget.

- Build a robust budget involving and engaging all relevant teams to ensure ownership and buy-in across the entire organization.

- Respond to change and uncertainty by simulating different scenarios while mitigating risks.
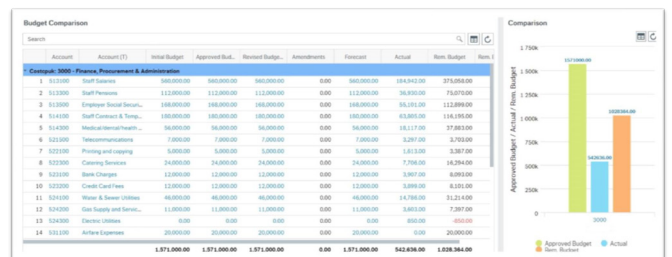

- Better understand dependencies and save time through predictive analytics and in-context information allowing to plan for the future more effectively.

Enhance citizen value

- Respond to changing citizen needs by reconfiguring business processes and services rapidly to ensure that best value is delivered at all time.

- Ensure citizen data is handled securely and within legal regulations.

- Better use resources from back-office automation to improve front-line services. (e.g. child and elderly care, education, infrastructure and housing.)
