**PRODUCT:** Unit4 Enterprise Resource Planning (Cloud ERP)  
 Unit4 Financial Planning & Analysis (FP&A)

## Achievements

### Automation to the rescue

No more managing data for expenses, absences, budging, reporting across 12 sites with paper forms, mixed databases, and Excel.

### Freedom and flexibility

Can adapt processes to suit business needs, rather than being locked down by a fortune in consultant fees to make changes.

### Power of the cloud

So many fewer headaches and expenses: Disaster recovery, compliance, security patches... and the benefit of always being on the latest, most innovative version.

## The Challenge

Magnox needed a more streamlined way to run administrative processes, and with constant cost pressures, it needed to achieve these improvements at a lower total cost of ownership. In addition, Magnox was looking to improve budgeting and forecasting.

**“Unit4 has been a great partner for many years and Business World [Unit4 ERP] has delivered strong operational benefits. Moving to the cloud has made us even more streamlined and effective and has allowed us to take advantage of improving technology faster.”**

Mary Kent, Head of IT Programmes

## How did Unit4 help?

- Flexibility inherent in Unit4 ERP meant Magnox could adapt the system as needed themselves.
- Integrated HR Function put all records in one place, eliminating previously disjointed processes.
- Cloud eliminated significant work in managing the solution, as

well as avoided costs that would have been needed for an infrastructure upgrade.

- Unit4 FP&A transformed an extremely complex system of spreadsheets into an automated set of dashboards for internal and onward reporting.

## Impacts

**£400k**

Investment in infrastructure over 10 years

**15%**

Reduction in time to produce reports

**5%**

Reduction of effort due to the cloud environment
